Counseling for Young Ambitious Italian Men

Home Page Draft:

Attention:

Do you feel you are destined for a greater life, but feel overwhelmed by the obstacles in front of you?

Have you ever felt like talking out your problems to a therapist but didn't because you thought therapists are for pussies?

Are you ready to build the strength, wisdom, and resilience to become a "somebody"?

Well, the cold hard truth is right now, you are not a "somebody", the fact you are still reading this, looking for a therapist, signals weakness. Thankfully for you, we do not look down on the weak, we believe in shepherding in the weak, turning them into strong men.

Our goal is to mold you into someone who is strong enough to no longer need assistance from a shrink.

Understand:

Uncle Tommy is not a shrink organization, Uncle Tommy is a coach, a role model, a mentor, a "Somebody".

If you want to be a "somebody"! Somebody that demands respect, Somebody that achieves their goals, Somebody that women want, and men want to be! You have to stop looking for help from the outside and build it from within! AND WE WILL HELP YOU, HELP YOU.

About Uncle Tommy

Uncle Tommy is an organization founded by Nico Giordano. Nico started "Uncle Tommy" to commemorate his uncle "Tommy Giordano". The lessons taught in Uncle Tommy are all lessons Nico learned from his uncle Tommy.

Tommy Giordano was a father to Nico, as Nico's father was murdered when Nico was only 6. Nico's Uncle Tommy stepped in and raised Nico and Nico's cousins and shaped them all into strong men.

One night, Uncle Tommy didn't come home, that night became weeks and months, until Tommy's family finally accepted Tommy was gone. The entire Cicero area was devastated. But Nobody was more devastated than Nico.

Nico was sad, heartbroken, and his life began to fall apart. Nico's wife urged him to get help from a therapist, but Nico could not do that, therapists are for pussies.

The only thing that could cure Nico was a chat with his Uncle Tommy but that was impossible....

or was it?
